This Mileage chart shows the distance between various points along the South Downs Way in miles. The places listed in **Bold** are to be found on the Trail, the places listed in *italic* are near by villages with facilities such as public transport, refreshments and accommodation but are found just off the Trail. The figures in brackets next to 'off Trail' locations are the distances along the Trail before you need to head off the Trail, followed by the distance from the Trail to the village. A number of 'off Trail' locations have several access route options, but the closest or easiest has been chosen here. All distances are approximate and rounded to the nearest 1/2 mile. The locations on the darker grey background are to be found on the Bridleway part of the Eastbourne loop.
