Hi Jen & Kate,

Just to be clear an electric "hand drier" has been proposed for both the toilets, not a hair dryer!

This is to replace the paper hand towels, which require constant stocking & there are issues around the disposal of them.

There is no need to have hot water for washing hands, so the hand dryers would replace the water heaters which have not worked for years. I am going to ask for quotes from electricians

.

Jamie is unable to do the work on the outer door etc in the ladies toilet, as he has been unwell. Jen please could you ask your neighbour Marc to have a look & give a quote to Nick, thanks.

Best wishes & thanks

Tricia
